Bachelor of Computer Science

SALU-University (2024)

- Bachelor of Arts
(2023) - (2024)

WORK EXPERIENCE

Web Developer

March 2022 to April 2024 (2 years, 01 months)

I helped businesses grow their customer base by 50% by setting up email marketing tools on their websites and making it easier for customers to buy things.

I kept customers happy every year by quickly fixing any technical problems they had.

I made work easier for everyone by creating software that helped us keep track of problems and things our customers wanted us to add. This made us 60% faster each month.

I made our team work better together by building and managing websites where we stored helpful information. This made us 10% more efficient.
